About Us

Headquartered in Dubai, UAE with a nationwide IT presence, with more than 200 + skilled employees, we have been the **IT services company Dubai** provider of choice for small and medium businesses all over Dubai, Sharjah, Abu Dhabi, and the Middle East. Our branches in GCC countries (like KSA), and India have given us the privilege of having spectacular exposure to the dynamics of the international market. Our capability to serve the client in local and global markets has enhanced, catalyzed, or boosted our confidence in expanding our business thoroughly. Our Operations Center works 24/7 providing IT Support Services and Server Monitoring to small and medium-sized organizations.

We also deliver cost-effective and efficient designs, project implementations, maintenance contracts thus providing our customers the highest level of service in all industry verticals such as Large and Medium Enterprises, Conglomerates & Airlines, Government, Oil & Gas, Banking & Finance, Hospitality, Healthcare, and Education sector

From Computer Support Services, IT consulting, IT outsourcing, Helpdesk Services, Server Backup & Disaster Recovery and **CCTV camera installation Dubai** to Industry Specific Strategic IT Consulting, IT Managed Support Services, Business Telephony Systems, Server and Network Infrastructure Security and other **IT Services – Bluechip Computer Systems LLC** is your IT partner. We are also System Integrators and suppliers of high-performance HP servers, Cisco products, Voice and Data Communication, Digital Security, and Audio Visual Products/Services. Being the market leader in Unified Service Delivery Management solutions we are focused on assuring service delivery for the world's most demanding and complex service delivery environments. We are committed to providing total customer satisfaction by providing you the best products and quality service supports when it comes to information technology.

•We are partners with all major technology vendors and are pioneers in delivering technological solutions and services in Enterprise Computing, Data Networking & Security, Voice & Telephony, Microsoft Licensing & Solutions, Value Added Services, Business Continuity & Disaster Recovery, Data Centers, Audio Visual, Access Control, CCTV, Video Conferencing.

•We also deliver cost-effective and efficient designs, project implementations, maintenance contracts thus providing our customers the highest level of service in all industry verticals such as Large and Medium Enterprises, Conglomerates & Airlines, Government, Oil & Gas, Banking & Finance, Hospitality, Healthcare, and Education sector.

Vision and Mission

Vision

Bluechip Computer Systems LLC's vision is to empower people and enable organizations to enhance and sustain excellence in this tech-savvy world through enduring practical solutions to excel and elevate the ICT (Information and Communications Technology) benchmark of the corporate and individual

Mission

Bluechip Computer Systems LLC is deeply committed to operating in compliance with time-tested values and principles. Leading **IT Company in Dubai** aims at exceeding our customer expectations and offers superior customer support through intelligent, user-friendly technology and exceptionally high ethical values. We seek healthy growth while continuing to remain responsive to societal and environmental concerns. We work towards preserving the rights of our investors and employees. We aspire to be the best ICT solution provider by delivering cutting-edge IT and management solutions. These are our guideposts. All our people are guided by them.

Front **End** Sales Team & Roles

1. **Customer Engagement**

- ✓ Actively engage with potential and existing customers to understand their needs.
- ✓ Build and maintain strong relationships with customers.
- ✓ Provide personalized service and attention to each customer.

2. **Sales Presentations and Demonstrations**

- ✓ Conduct effective sales presentations and product demonstrations.
- ✓ Highlight the features and benefits of products or services.
- ✓ Address customer questions and concerns during presentations.

3. **Lead Generation and Prospecting**

- ✓ Identify and generate new leads through various channels (networking, cold calling, referrals, etc.).
- ✓ Qualify leads to determine their potential and prioritize efforts.
- ✓ Follow up on leads promptly to convert them into sales opportunities.

4. **Negotiation and Closing**

- ✓ Skillfully negotiate terms and conditions with customers.
- ✓ Overcome objections and handle challenging customer interactions.
- ✓ Close sales deals effectively to meet or exceed sales targets.

5. **Product Knowledge**

- ✓ Maintain in-depth knowledge of the company's products or services.
- ✓ Stay updated with the latest product developments and industry trends.
- ✓ Communicate product information accurately and convincingly to customers.

Cont.

1. Customer Relationship Management (CRM)

- ✓ Use CRM tools to track customer interactions and sales activities
- ✓ Utilize CRM data to identify sales opportunities and manage customer relationships.

2. Sales Planning and Strategy

- ✓ Develop and execute individual sales plans to achieve targets.
- ✓ Align sales activities with the overall sales strategy and goals.

3. Market and Competitor Analysis

- ✓ Understand the market landscape and customer segments.
- ✓ Monitor competitor activities and offerings.
- ✓ Use market and competitor insights to position products or services effectively.

4. Customer Feedback and Satisfaction

- ✓ Collect and act on customer feedback to improve products and services.
- ✓ Ensure high levels of customer satisfaction through excellent service.
- ✓ Resolve customer issues and complaints promptly and professionally.

5. Team Collaboration

- ✓ Work closely with other team members and departments to achieve sales goals.
- ✓ Participate in team meetings and contribute to a positive team environment.

6. Continuous Improvement

- ✓ Seek opportunities for professional development and skill enhancement.
- ✓ Stay informed about industry trends and sales techniques.
- ✓ Strive for continuous improvement in sales performance and customer service.

Front End Tech Team & Roles

1. Technical Support and Troubleshooting

- ✓ Provide technical support to users and resolve technical issues promptly.
- ✓ Troubleshoot software and hardware problems.
- ✓ Document and track issues and solutions for future reference.

2. Infrastructure Management

- ✓ Manage and maintain IT infrastructure, including servers, networks, and databases.
- ✓ Ensure the availability, scalability, and security of IT systems.
- ✓ Perform regular system backups and implement disaster recovery plans.

3. Cybersecurity

- ✓ Implement and maintain security measures to protect systems and data.
- ✓ Monitor for security breaches and respond to incidents.
- ✓ Stay updated with the latest cybersecurity threats and best practices.

4. Collaboration and Communication

- ✓ Work closely with other departments to understand their technical needs and provide solutions.
- ✓ Communicate technical concepts to non-technical stakeholders clearly and effectively.

5. Project Management

- ✓ Plan and manage technical projects from inception to completion.
- ✓ Define project scope, objectives, and deliverables.
- ✓ Ensure projects are completed on time, within budget, and to the required quality standards.

Cont.

1. Research and Development

- ✓ Stay abreast of emerging technologies and industry trends. Evaluate and implement new
- ✓ technologies to improve efficiency and productivity.

2. Training and Development

- ✓ Provide training and support to team members and end-users.
- ✓ Share knowledge and best practices within the team.

3. Issue Resolution and Troubleshooting

- ✓ Provide prompt and effective resolution of technical issues reported by users.
- ✓ Troubleshoot hardware, software, and network problems.
- ✓ Document and track issues and their resolutions in a ticketing system.

4. Customer Service

- ✓ Deliver excellent customer service to ensure high levels of user satisfaction.
- ✓ Communicate clearly and empathetically with users, explaining technical issues in non-technical terms.
- ✓ Follow up with users to ensure issues are fully resolved and to gather feedback.

5. Performance Monitoring and Reporting

- ✓ Monitor the performance of IT systems and services.
- ✓ Generate regular reports on support activities, system performance, and user satisfaction.
- ✓ Use metrics and feedback to identify areas for improvement.

6. Security and Compliance

- ✓ Implement and enforce security protocols to protect data and systems.
- ✓ Educate users about security best practices, such as password management and phishing awareness.
- ✓ Ensure compliance with organizational policies and regulatory requirements.
- ✓ Regularly review and improve support processes and workflows.

Cont.

1. System Monitoring and Maintenance

- ✓ Monitor systems and networks to identify potential issues before they impact users. Perform
- ✓ regular maintenance tasks to ensure systems are running smoothly.
- ✓ Update software and apply patches to keep systems secure and up-to-date.

2. User Support and Training

- ✓ Provide support and guidance to users on how to use systems and applications effectively.
- ✓ Create and deliver training sessions or materials to help users become more proficient with technology..

3. Incident Management

- ✓ Log, prioritize, and manage incidents in a structured manner.
- ✓ Escalate complex issues to higher-level support or specialized teams as needed.
- ✓ Ensure incidents are resolved within agreed service levels.

4. Hardware and Software Management

- ✓ Assist with the installation, configuration, and maintenance of hardware and software.
- ✓ Manage inventory of IT equipment and software licenses.
- ✓ Coordinate with vendors for hardware repairs and software support.

5. Problem Management

- ✓ Identify recurring issues and develop strategies to prevent them.
- ✓ Conduct root cause analysis for major incidents.
- ✓ Implement long-term solutions to improve system reliability and user experience.

Our Backend Sales Branch & Roles
